What is the speed record for a mountain bike?

Bike Park Trivia:

In 2017, Eric Barone broke 141 miles per hour or 268 km/h on a mountain bike. This was done in the French Alps on a snowy ski slope. The 56 year old broke his own record of 138 mph set in 2015. Compare this to the thrill of a modern downhill MTB race of about 40 mph (65km/h).
